**ADMISSIONS 2026-27**

# MASTER OF ARCHITECTURE URBAN DESIGN

A strongly human-centric framework views the city as an outcome of continuous transactions between people and built and unbuilt spaces. It emphasizes how people shape, experience, and connect with their environments, focusing on movement, everyday life, and community interactions, while bringing together the interconnected ideas of people, place, and community. Culture is understood as a fundamental force shaping cities, making nuanced engagement with cultural contexts, practices, traditions, and identities essential to urban design thinking and intervention. Research forms an integral part of understanding any urban context, enabling rigorous investigation, critical analysis, interpretation, and informed decision-making. Through this approach, urban design becomes a responsive and inclusive practice that addresses social, spatial, environmental, and cultural dimensions while creating meaningful and sustainable urban environments for diverse communities.

Internship opportunities with architectural firms.

Interaction with professionals and experts.

Scope to explore allied domains.

Active involvement of industry experts.

Emphasis on software-based urban analysis.

Analytical and evidence based research

2 years | 4 Semesters  
 Intake : 20 ; 51% Seats for Muslim Minority  
 Affiliated to Mumbai University  
 Approved by Council of Architecture, India (COA)  
 College DTE Code : 3246
